...Remember to proofread your assignment and support all of your paragraphs and ideas with details!!
2. **Tutor another student in any curriculum area for at least 30 minutes.** Complete the AVID Tutorial Request Form. In the reflection section, summarize your procedure for helping the student. Then attach the notes you two took. Also include a teacher's signature verifying what you did.
3. **Subject Content:** Choose a topic you are currently studying in a college-prep class to research further. Write at least one page of Cornell notes (including a summary!) on your findings.
4. **Guest Speaker:** Attend a presentation put on by the school or community related to college and/or careers. Take at least one page of Cornell notes on what you learned and have a person of authority sign and date your paper.
5. **Interview a Professional:** Take Cornell notes (min. of one page) as you conduct an interview about an individual's career or profession. Learn everything this person does, how much he/she earns, and the requirements (college, etc.) needed to attain this position. Find out the pros and cons of the job and what a typical day is like. Be sure to include in your notes the person's name, his/her job title, and a detailed reflection of your thoughts/reactions. (*Note: this person cannot be a parent/guardian.*)
6. **Interview a Current College Student** (someone currently enrolled): Interview the student by e-mail or in person, asking a minimum of 10 questions. Print out and turn in the entire correspondence between the two of you and include a ½ page written reflection of your experience.

If you have an idea for an alternate make-up assignment, share it with your teacher...it might just get approved! ☺
